What's Inside

January/February 2008 Volume 28 Number 1

Features

14 Canada's Economic Headwind

BMO economist says the dollar parity and weak U.S. economy mean trouble in Canada. AFP spoke with Michael Gregory at the AFP Annual Conference in Boston.

19 AFP Training Essentials Newsletter

One of the benefits of AFP membership is access to training tools to help extend knowledge in treasury. One way to keep up with developments is to receive the Training Essentials Newsletter.

24 Think Finance

At the AFP Annual Conference, Elizabeth Johns spoke with Ira Birns, CFO of World Fuel Services and a member of AFP's Board of Directors.

28 The Upside of Risk

Risk management has evolved from a defensive strategy to a way that corporations can protect themselves while allowing for future growth. *Nicholas Jon Wood, AFP*

32 Risk in Corporate Cash Portfolios

Taking investment risks in this time of liquidity challenge doesn't mean you have to give up on risk investing altogether. With close, careful attention and properly written investment policy you can succeed.

Matthew A. Grimes, CFA, managing director,

Short Duration Credit Research, Wells Fargo

John Slifer, managing director, Business Development, Wells Fargo

34 Hedge Effectiveness

Companies with derivatives exposures face any number of outcomes. Nothing is certain. But the implementation of FAS 133 made accounting for derivative fair market value a requirement.

Ira G. Kawaller, president of Kawaller & Co.

38 A Risk-Based Approach to Model Development

The wide use and increased complexity of models mean that, in many cases, model risks have begun to outpace the infrastructure that organizations have in place to manage them. *Michael Conover, KPMG LLP*

41 Data Management: The Next Frontier

The subprime crisis has put an emphasis on how to minimize casualties along the way. Better risk and compliance measures must be in place. Internal controls including data management must be pristine.

Neil Edelstein, senior director, Product Solutions of GoldenSource

44 Managing FX Settlement Risk

Continuous Linked Settlement (CLS) is a real time, global settlement process that reduces settlement risk caused by foreign exchange transactions occurring across different time zones.

Patrick Lefler, Wall Street Systems

46 Profile: Yoke San Reynolds, CFO, University of Virginia

Treasury and finance at a public university take on an unusual visage for a chief financial officer. It requires a special background to meet the demands of this academic/treasury position. *Betty Penzner, AFP*

50 Retailer Bounces Bank

Children's Place treasurer Adrienne Urban is interviewed by Kraig Conrad about the insurance claim challenges she and her company faced during Hurricane Katrina and how they overcame them.

AFP Staff Writers

52 Year of Uncertainty

Worldwide growth is projected at around 3%, while China and India see most robust growth. *Christopher Bjorke, AFP*

54 Paperless Horizon?

Electronic payments for business-to-business transactions are increasing, check usage is declining, but the e-payments advance is gradual and strewn with obstacles. *Arlene S. Chapman, CTP, AFP*

59 Less Than Great Expectations

The annual AFP survey of business conditions forecasts weaker economic growth and worse business conditions in 2008.

Staff Reports, AFP

Columns

Cash Column **12**
The risk of reporting information is examined. Data control is critical to reconciliation and forecasting.
Terrence Foster, CTP, AFP

Financial Accounting and Reporting **16**
There currently is significant pressure for U.S. regulators to adopt International Financial Reporting Standards as a reporting alternative for U.S. domestic companies.
John R. Rieger, CPA

Treasury Essentials **20**
Treasury professionals should understand the efficient use of positive pay services including reverse positive pay and payee positive pay. This is a new column.
Ernie S. Humphrey, CPA, AFP

The Bottom Line **68**
Look behind you for a hidden business risk of not going green.
Elizabeth Johns, AFP
