Certified Treasury Professional®

A valuable asset for your career.

Optimizing cash resources, maintaining liquidity, ensuring access to short-term and long-term financing, judging capital investment decisions and controlling exposure to financial risk are pressing issues facing most organizations. Certified Treasury Professionals (CTPs) demonstrate mastery in these and other critical areas.

Join 23,000 CTPs Worldwide

The Certified Treasury Professional® (CTP) certification sets the standard in the finance and treasury fields. Sponsored by the Association for Financial Professionals® (AFP), the CTP® credential signifies that you have demonstrated the knowledge and skills required to effectively execute critical functions related to corporate liquidity, capital and risk management. In today's environment, companies are looking for proven professionals who can lead change and mitigate risk exposures.

Whether you're looking to safeguard your career or seeking a promotion, earning the CTP certification can open a variety of doors. The 2011 AFP Compensation Survey shows that CTPs earn more than their non-certified peers. According to the research, financial professionals who do not have an advanced degree improve their salary potential by earning professional certifications such as the CTP.

 Countries where CTP credential holders reside

Why should you earn the CTP?

1. Higher salaries.
— Earn up to 23% more than your non-certified peers
2. Increases job security.
— Validates your competency in liquidity, capital and risk management functions
3. Better career flexibility.
— Prepares you for greater on-the-job responsibilities
4. Improves marketability.
— Stand out against other applicants in a competitive job market
5. Boosts relevancy.
— Stay current in the profession with continuing education requirements

Competency Validation

Gain the knowledge to execute these critical functions:

- Maintain corporate liquidity required to meet current and future obligations in a timely and cost effective manner.
- Manage optimal cash positioning through forecasting and short-term investing and borrowing activities.
- Employ working capital strategies and tools to efficiently manage current assets and liabilities.
- Utilize various types of payment systems and Internet technologies to transfer monetary value and business documents between parties.
- Monitor and control corporate exposure to financial and operational risks.
- Optimize capital structure, manage costs of long-term capital and quantitatively evaluate capital resource investments.
- Manage cross-border funds movement and utilize trade financing methods.
- Coordinate financial functions and sharing of financial information with other internal departments.
- Delineate appropriate ethical behaviors expected in business activities.
- Recognize corporate governance issues that arise from the separation of corporate ownership and control.
- Build cost effective relationships with financial services providers.
