Netflix

**Ken Kruszka**  
*Chief Executive  
Officer*  
SnapCheck

**Connie Theien**  
*SVP, Industry  
Relations*  
Federal Reserve

# Summary

The continued growth in the use of faster payments technology is validated by Nacha's reporting of over 66 million Same Day ACH Payments in Q3 2019, a 54% jump from the previous year.

As The Clearing House gains traction with real-time payments and as the Federal Reserve's FedNow<sup>SM</sup> is added to the mix, it's clear that faster payments is moving from concept to reality.

And, as these and other faster payment options come online, demand is shifting from interest to expectation. Today we'll discuss what corporates need to know to successfully incorporate faster payments technologies into your operations.

# 5 Reasons

- **Business is moving to digital**
- **Cash flows are under pressure**
- **Your competitors are moving**
- **Your customers expect faster payments**
- **It makes your life easier**

# Key Takeaways

- **Faster Payments are here today, with more options on the horizon.**
- **Building a strategy takes time, and now is the time to get engaged.**
- **It's not about speed, it's about data and user experience.**
